

SYMBOL OF
CONFIDENCE

ABOUT US

OMNANDI have more than 20 years of experience of product designing and manufacturing with the knowledge of global plumbing standards. Our advance infrastructure facilities, supported by highly talented and dedicated personal, are the major assets of our organization.

Our manufacturing unit, equipped with the most modern machinery and technologies, empowers us to manufacture excellent quality products.

All OMNANDI products go through various strict quality controls check at all stages of manufacturing and processing before assembled.

With the changing time, the definition of bathroom has changed altogether. OMNANDI bathing solutions has explicitly understood this change.

With a mere decade experience it has made a worldwide presence and ushered in new era of converting bathroom's into glamour room by not only offering the latest but the very best in bathroom fittings.

The company is vastly circulating its series of OMNANDI brand in the market. A series that is enduring, exquisite and ravishing. The company has a dedicated team of proficient and dedicated workforce determined to produce refreshing ideas in the from of bathroom fittings.

MISSION

THINKING

DESIGNING

ABOUT US

Our existing manufacturing standards are amongst the very best in the industry

R & D

OMNANDI Department has the late equipments and instruments along with 3 modeling design software to create cutting edge design function and achieve most accurate specification.

TOOLING

Highest quality of tool room using 4D technology to produce VMC Die.

CASTING

Our Faucet bodies are die casted using virgin quality brass ingots and most technologically advanced core shooters to ensure a smooth internal finish.

MACHINING

Our cutting-edge CNC machine ensures highest standard of threading and surfaces finished to a high degree of smoothness.

ELECTROPLATING & POLISH

Surface of the bodies are grinded and polished by skilled artisans to attain perfect base sheen. this is followed by the state of the art electroplating where with every faucet under goes chrome finish first with the coating of copper and the 10 micron nickle coating. lastly 3 micron chromium plating.

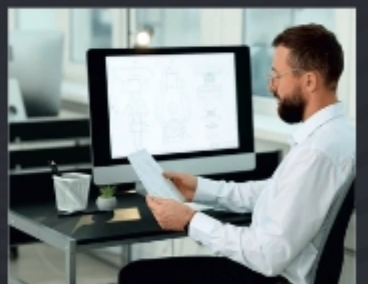

FITTING & ASSEMBLY

All the parts of the faucet, that is, nozzle, handle, lift rod, cartridge, water inlets, and mixing chamber, are now assembled in a certain order with extreme precision. Proper assembly is done manually by our team, which leads to determining the faucet's quality and functioning.

FINAL PRODUCT TESTING

All products are tested under both hydraulic and pneumatic pressure as recommended by the bureau of Indian standard and as per inter-national norms

QUALITY CONTROL

Faucets are put under the most rigorous tests at each step of manufacturing which include the pressure test, life cycle test and 450+hours of salt spray test to ensure product performance remains perfect throughout its lifetime.

OMNANDI SPECIALIZED FAUCETS

Premium Chrome Finishes :

- Radiant chrome finish resistant to soil and tarnishing - stays like new for years.

Easy to Operate

- Smoothest handling, comfort and reliability.

Water Saving Aerator

- Aerator save 40% water with the same feeling of water.

New design for the professional solution

OMNANDI presents a new generation of faucets. Hygiene, ecological, durability and safety are reflected in a modern yet timeless designs.

Comfortable Shapes :

- All faucet's Lever length matches spout length for convenient operation.

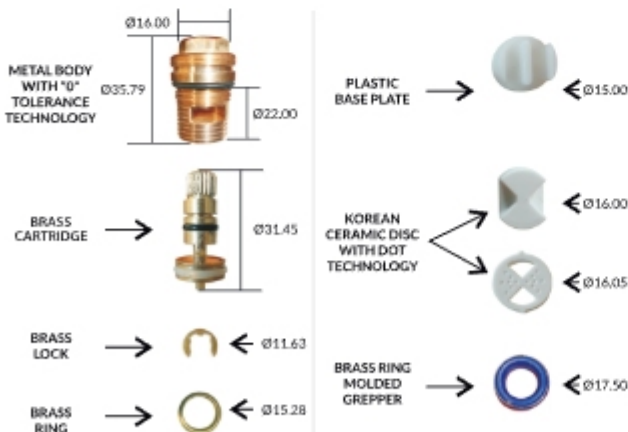

Overlapped Top:

- Water drips off for easy cleaning.

The optimum

solution for all applications
From hospitals to care homes; from patients' bathrooms to examination rooms; and from laboratories to kitchens, the specialized faucets offers maximum flexibility for all draw-off points .

Product Description

Complete Ceramic Cartridge

We are manufacturer of top-class Ceramic Cartridge in the world, which is with fine quality for unvarying using with quality guaranteed through 100% Water tightness tested under water pressure. The rigidity of the cartridge are high, Even under using condition with unstable water pressure, performance life 5 Lacs operating times are guaranteed.

All the metal parts of the internal cartridge, are made of extruded brass rod ensuring flawless performance for a longer period.

Main Material : Brass
Water Pressure : 0.4 Mpa.

Ceramic disc taps operate in a different way for conventional taps that have main cartridge. They have a cartridge in the body of the tap containing a pair of ceramic discs, each one with two holes in it.
